GruppoNueva™

“GruppoNauva's porcelain tiles authentically replicate architectural materials like concrete, wood, and stone, boasting a substantial 20MM thickness. This thickness not only enhances the tiles' technical prowess but also provides superior durability and a natural appearance, making them ideal for various outdoor applications.”

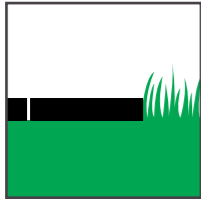

Benefits Avantages Vorteile

Easy to install			Easy to clean
Accessible and reusable			Frost resistant
Break resistance			Anti-slip
Resistant to the passing of time			Ecological and sustainable
Breaking strength			Resistance to staining
Resistance to abrasion			Impact resistance

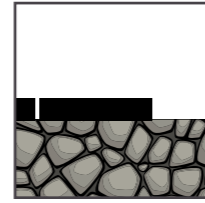

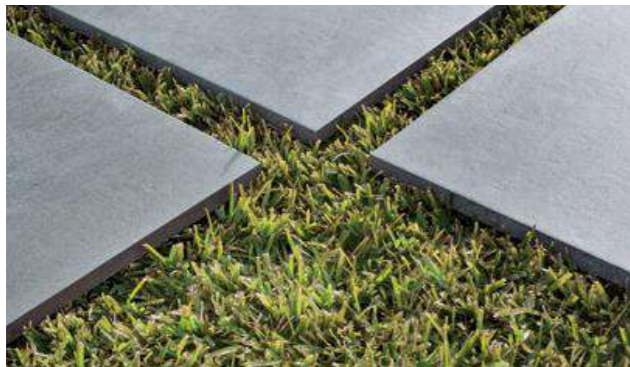

Application

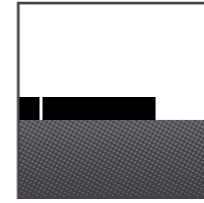

GruppoNueva™

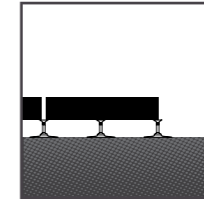

Laying on grass lawns

Laying on gravel

Traditional adhesive installation

Raised access flooring
